Our Services

VOCA Services

If you are a survivor of crime, VOCA (Victims of Crime Act) funded services are available to you. Services at KHDS include community outreach and response, the Family Intervention Project for families who experience intimate partner violence, and VOCA therapy.

Who is eligible?

All victims of crime are eligible for VOCA therapy. After you complete a referral, one of our therapists will contact you to determine the best course for your therapy. VOCA services are provided without charge to you, the survivor. Once your safety and stability are established, the option to utilize private insurance for therapy sessions is available.

What We Do

Our Therapists:

VOCA Therapists respond to your emotional and psychological needs, assist you in developing stabilization plans, and help restore your sense of safety and security after victimization. Your therapist will provide trauma-informed, therapeutic interventions including assessments, treatment plans, and ongoing therapy sessions.

We understand that making the choice to attend and commit to therapy can be difficult for a variety of reasons. VOCA therapists are here to serve you in a way that creates a welcoming and supportive environment. To best connect with you, our therapists practice unconditional, positive regard and respect for all, while being flexible and open to working with your scheduling needs.

VOCA therapy may be provided in person, on the phone, on a virtual platform, or a combination of all of these. Providing flexibility and safety to you is the priority.

We understand therapy can mean sharing difficult traumas and experiences, which can be both painful and freeing. We are here to support you and help you to work through those challenges. We ask for your full commitment to the process by willingly attending scheduled sessions, keeping an open mind to treatment methods, and maintaining a dedicated level of commitment to your recovery.

Our team is diverse in backgrounds, beliefs, and training to better serve you and the diverse population of survivors.

We look forward to seeing you.
